

Stage 1 Water Shortage Emergency Notice & Water Conservation Resources

City of Mountain View Fall/Winter 2021-22 Bill Insert

The City of Mountain View has declared a Stage 1 water shortage emergency. Please note the following water use restrictions are currently in effect:

Stage 1 Water Use Restrictions

Do Not:

- ✘ Allow water to run off into paved areas (gutters, sidewalks, streets).
- ✘ Allow broken equipment to waste water.
- ✘ Wash paved surfaces and vehicles with a hose that does not have an automatic shutoff nozzle.

Do:

- Fix leaks within 10 days of noticing them.
- Install an automatic shutoff nozzle on your hose when washing paved surfaces and vehicles.
- Restaurants: Ask before serving water.

Water Conservation Tips

💧 Turn off your irrigation system when it rains and during the winter season.

💧 View the step-by-step leak check guide: mountainview.gov/leakcheck

Healthy Trees

Trees provide many benefits to our community. Limit water use for lawns and help your mature trees and plants during the drought by watering them as needed.

For drought tree care tips, visit: mountainview.gov/treecare

Understand Your Water Usage

Mountain View's **WaterInsight Program** is an online portal where customers can view historical water usage, sign-up for leak alerts, pay utility bills, and receive custom water-wise tips.

💧 Log in with your utility account number and zip code: waterinsight.mountainview.gov

Valley Water Rebates & Programs

Landscape Rebate Program – Rebates are available for installing low water-use plants, rainwater capture systems, and upgrading to efficient irrigation equipment.

Water Wise Outdoor Survey – Check if your irrigation system is working efficiently with a free system inspection by a trained professional. Rebates and programs: watersavings.org.
