MESSAGE FROM THE CHIEF

Max Bosel

I am pleased to present the 2016 calendar year annual report for the Mountain View Police Department. This traditional report is published to fulfill, in part, the Department's commitment to sharing information with how the Police Department is accomplishing its mission.

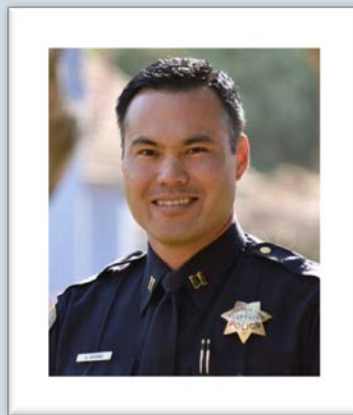

The changes in the number of reported crimes, arrests, collisions, and other police activities capture a point in time that can be compared to previous calendar years, although trends and causation of changes can be complex and difficult to define. The data also does not tell the story about the human impacts of crime on its victims, their families, and the community at-large. It also can only capture a portion of the services, efforts, and results from the men and women who patrol your neighborhoods, answer your calls for help, investigate crimes, seek justice for victims, answer questions and concerns, and support the operations that provide the quality police services the Mountain View community expects and deserves.

I am committed to keeping Mountain View a safe community, and to ensure its Police Department embodies the city's values, continuously improves, and provides a professional, innovative workplace that promotes safety, works effectively with people, and delivers fair and impartial results through good police work. In addition to this annual statistical overview, I would encourage interested stakeholders to review the [City's Policing Plan](#), which provides details on the goals, objectives, and initiatives the Department is undertaking to serve and protect Mountain View.

CRIME

In 2016, reports of violent and property crimes decreased, and the overall crime rate is 15% lower than 2015. The number of aggravated assaults reported was 95, which is the only time in the last 10 years, and perhaps longer, that this number has been under 100. While this is great news, the numbers of reported crimes were still higher than the last five year average, and we are vigilant that crime rates may again increase. Crime and causation are complex and difficult topics to fully explain. The policing profession is working with its criminal justice colleagues to better understand changes in crime rates, since the dramatic increase in crime following the passage of proposition 47 in November 2014. Areas that the department is focusing on include enhancing safety, reducing criminal victimization and enhancing emergency response.

VIOLENT CRIME	60%	83%	-22%
PROPERTY CRIME	13%	14%	-1%
CLEARANCE RATE TOTAL	16%	20%	-3%

Clearance Rate: A clearance rate is the percentage of crimes reported that have been cleared. A clearance rate is calculated by dividing the number of crimes cleared by the number of crimes reported; the result is multiplied by 100. For example, if there were 35 robberies cleared and 78 robberies reported. This equals a homicide clearance rate of 44.9 percent.

ARRESTS	2016	2015	% CHANGE

WARRANTS/HOLDS	2	5	-60%
JUVENILE TOTAL	121	136	-11%
ARRESTS GRAND TOTAL	2226	1978	13%

ARREST RATE	2016	2015	% CHANGE
FELONY	3.93	4.59	-15%
MISDEMEANOR	18.91	16.60	14%
WARRANTS/HOLDS	5.74	4.20	37%
ARREST RATE TOTAL	28.57	25.39	13%

Arrest Rate: An arrest rate describes the number of arrests made by law enforcement agencies per 1,000 total population. An arrest rate is calculated by dividing the number of reported arrests by the respective population; the result is multiplied by 1,000. For example, if there were 2,500 total felony arrests and the total population was 73,000, the arrest rate is 34.25. The state factors the rate based on 100,000 population. To compare the MVPD rate to the state, multiply the MVPD rate by 100. Note that this is an inflated rate from the actual rate per population. MVPD does not calculate the arrest rate for the population at-risk (ages 10-69).

Population: Based on data from the State of California Department of Finance Demographic Research Unit. (<http://www.dof.ca.gov/research/demographic/>). The population basis is recorded on the Monthly Recap page.

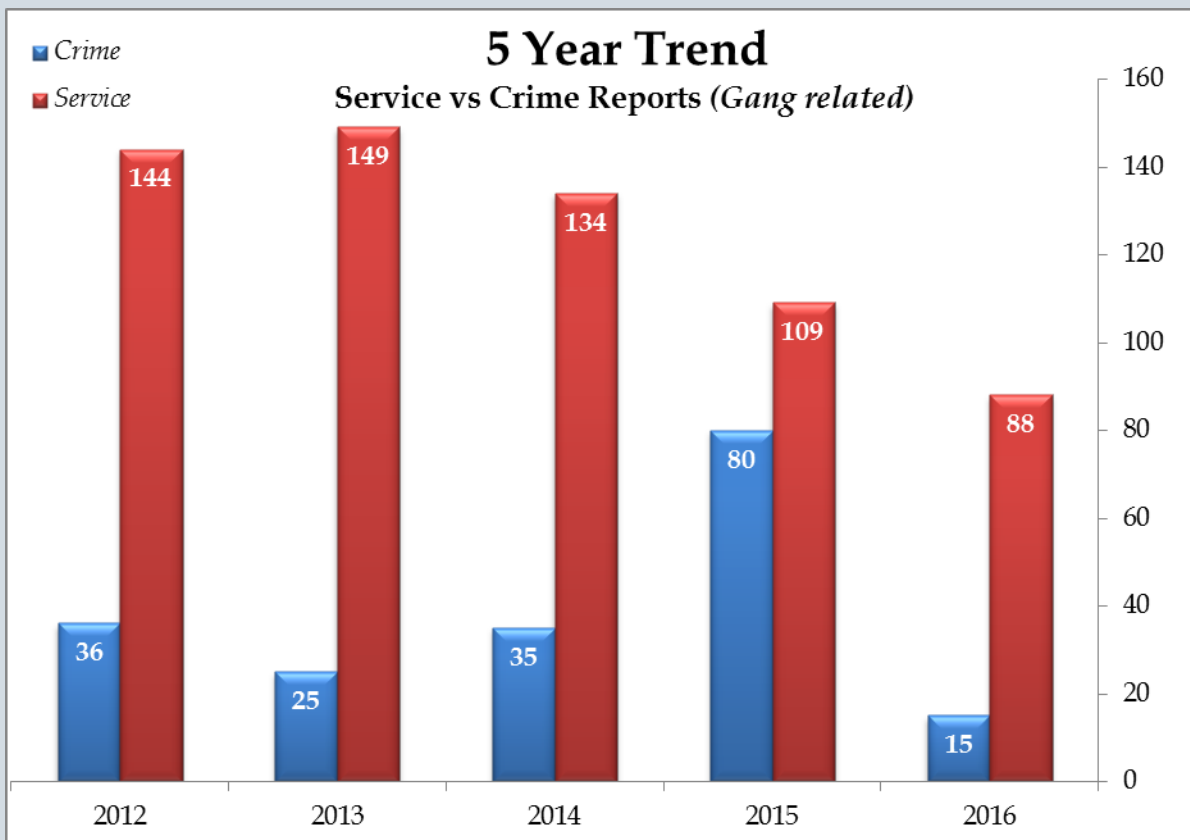

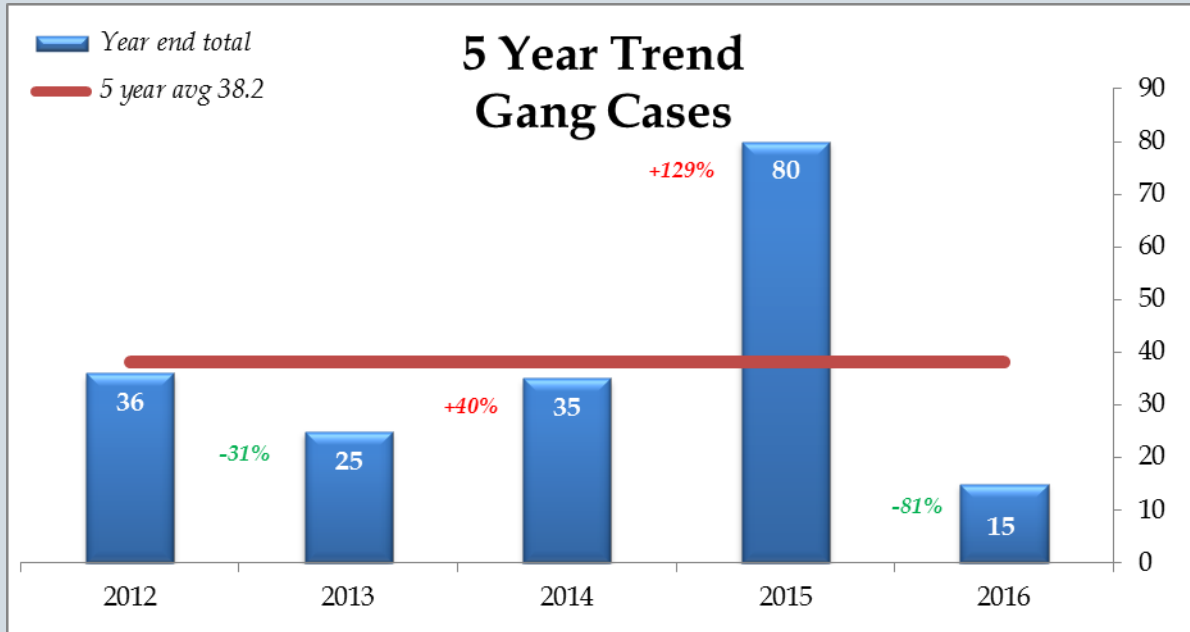

Chart reflects number of Service Reports involving gang subjects, not the number of involved persons from each report. Service reports are NOT a gang crime; however, the subjects involved in the non-crime case are a known gang member or gang affiliate.

TRAFFIC

Since making the change to improve the traffic collision reporting process in early 2015, injury collision reports in 2016 show consistent numbers when compared to 2015. There were no fatal collisions in 2016, which is not unusual in a calendar year, except that it is a significant decrease from the six fatal collisions in 2015. With traffic becoming a top community concern, the Police Department has ramped up proactivity in its efforts to promote traffic safety. In 2015, the department was awarded an Office of Traffic Safety grant that has expanded education and enforcement activities. We continue to work with the Public Works Department's traffic engineers to ensure roadways are designed to maximize safety. While the Traffic Unit remains primarily dedicated to traffic safety, patrol officers also engage in enforcement and education duties. This combined with traffic diversion programs, social media outreach, and directed patrols with neighboring agencies highlights the department's efforts to promote individual responsibility by motorists, bicyclists and pedestrians in order to reduce traffic related collisions.

The analyzed data aggregates Police Department race/ethnicity reporting categories into US Census categories. Race or ethnicity is reported for involved parties listed on incident reports and citations. Contacts where race was unknown or left blank (such as in some cases reported by the public on the Internet), were not included in the totals. Victim contacts do not include businesses. The race or ethnicity for suspects can be for named individuals or for unknown suspects described by victims or witnesses. Arrests include persons arrested on criminal charges, warrants, and probation/parole holds. The "All Contacts" category includes parties classified as "Other," which is not reported separately in the table.

---PROFESSIONAL STANDARDS---

The Police Department carries an immense responsibility to ensure the authority its employees exercise is done within the confines of the law, defined policies, and organizational values. The Department's primary resource for ensuring accountability is its frontline supervisors and the Professional Standards Unit. "Internal affairs" commonly works with the City's Human Resources Division of the City Manager's Office and the City Attorney's Office in the investigation and due process of sustained complaints. Command staff reviews every critical incident, use of force, and pursuit to ensure compliance with agency policies, identify training gaps, and ensure agency practices are contemporary. 2016 was the first year the Officer Worn Camera program was fully implemented for patrol officers. The Department completed an analysis of the President's 21st Century Policing Task Force Report, and efforts are underway to expand the Department's training in fair and impartial policing and procedural justice. Overall, uses of force occur in less than one percent of arrests. In addition to complaints, we record citizen commendations. In 2016, 22 employees received 29 letters of appreciation or commendation from members of the community.

USE OF FORCE						
TYPE OF FORCE	INJURY					TOTAL
	NONE	MINOR	MODERATE	MAJOR	FATALITY

Mountain View Police Activities League

Mountain View Police Activities League's (MVPAL) is a non-profit organization that the Mountain View Police Department provides support. MVPAL's mission is to foster mutual understanding between youth and police officers through a non-confrontational setting and, in this way, divert them away from gangs and criminal activity. To accomplish this goal, MVPAL offers a wide variety of recreational and leadership opportunities to kids between the ages of 5 and 18.
