SUBJECT: **Investment Information Report for December, 2022**

Attached are the portfolio performance status, diversification compliance, holdings and transaction ledger reports for the period ending December 31, 2022. There were no Investment Policy (Policy) violations during the reporting period. All measures required by the Policy are reported and bond proceeds are reported as required by State law.

The following is a summary of evaluation measures specified in the Policy, comparing actual performance to policy requirements. As authorized by City Council, the Shoreline Regional Park Community 2018 bonds were purchased as investments in the City's portfolio but are excluded from the Modified Duration and Weighted Average Maturity calculations due to the maturity length, which would skew the portfolio indicators.

- Market value as a percent of cost decreased by four basis points to 96.03 percent. If the portfolio were liquidated on December 31, 2022, the City would have received 3.97 percent less than the cost of the individual securities held in the portfolio. The Federal Reserve began raising the target Federal Funds Rate in March 2022 to combat a significant rise in inflation. This rate has been raised seven times in 2022 bringing the rate into a range of 4.25% and 4.5%. Changes to the Federal Funds Rate affect the market value of the City's existing portfolio; however they don't affect actual earnings of the existing investments in the portfolio since the City generally holds its securities to maturity.
- The modified duration of the portfolio (excluding the 2018 Shoreline Bonds) at month end is 1.84. Modified duration is a measure of exposure to market risk indicating that for every 1.00 percent increase in interest rates, the portfolio value would decrease 1.84 percent. The portfolio comparison benchmark is a Merrill Lynch blended index, which had a modified duration of 1.86 at month end. The portfolio's duration falls within the policy guidelines of ± 15 percent of the benchmark, which would equal a duration of 1.58 to 2.14.
- The average credit quality of the portfolio is AA+/Aaa for the month. The S&P US Treasuries rating is a AA+ and the Moody rating is Aaa. Chandler includes both the S&P rating (AA+) and the Moody rating (Aaa) in the rating for the portfolio.

- The portfolio's one-month total rate of return as of December 31, 2022 is 0.14 percent, which is seven basis points below the benchmark. The total rate of return takes into account the market value (paper gains or losses) and returns from interest income paid on the invested principal.

The market value and diversification report shows the portfolio is in compliance with the Policy as amended December 11, 2018. The cost value of securities is divided into categories as a percent of the portfolio and matched against the limits prescribed by the Policy. NOTE: These percentage calculations do not include investments of bond proceeds and other debt instruments, which are excluded from portfolio measures pursuant to the City's Investment Policy. The provisions in bond indentures govern investment of bond proceeds.

In July 2013, the Corporate Note investment program was implemented as previously discussed with the Investment Review Committee and in compliance with the modifications approved by the City Council. As approved by the City Council on December 11, 2018 the Policy was updated to exclude investments in entities that engage in the direct exploration, production, refining or marketing of fossil fuels. The balance in Corporate Notes is approximately 7.96 percent and the Policy allows for a maximum of 15.0 percent.

In December 2015, Supranational Securities were added as a permitted investment in the City's Investment Policy. These securities must be issued or unconditionally guaranteed by the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), or Inter-American Development Bank (IADB). The balance in Supranationals is approximately 5.40 percent and the Policy allows for a maximum of 10.0 percent.
